PROFESSIONAL SUMMARY

Motivated 2nd-year Bachelor of Computer Applications (BCA) student with hands-on experience in Python, Pandas, NumPy, and exploratory data analysis. Skilled at cleaning, analysing, and visualising real-world datasets and applying statistical methods to uncover insights. Seeking an AI/ML, Python Developer, or Data Analyst internship to contribute to data-driven projects while building a strong, practical foundation in machine learning.

TECHNICAL SKILLS

Programming & Data: Python, NumPy, Pandas, Statistics

Data Analysis: Data Cleaning, Missing-Value Analysis, Exploratory Data Analysis (EDA), Descriptive Statistics, Correlation Analysis, Data Visualization (Matplotlib)

Web Development: HTML, CSS, JavaScript

Tools & Platforms: Jupyter Notebook, Google Colab, Git, GitHub, VS Code

PROJECTS

Hollywood Movie Data Analysis

Python · Pandas · NumPy · Jupyter Notebook

- Analysed a 970-record Hollywood movie dataset covering ratings, audience scores, genres, lead studios, budgets, and domestic, foreign, and worldwide gross revenue.
- Cleaned the data and performed missing-value and duplicate analysis, and reviewed structure, data types, and summary statistics using Pandas and NumPy.
- Explored the distribution of movie ratings, audience scores, and box-office revenue, and profiled genres, studios, and release years with frequency analysis.
- Measured relationships between numerical features through correlation analysis (budget, profitability, and gross revenue), building a foundation for future predictive modelling.

Amazon Product Data Analysis

Python · Pandas · NumPy · Matplotlib · Seaborn

- Cleaned and explored an Amazon product dataset covering prices, customer reviews, product categories, and order dates.
- Handled missing values and performed exploratory data analysis to study price distribution, review counts, and category-level trends.
- Created bar, pie, scatter, violin, KDE, and pair plots plus a correlation heatmap to surface patterns, trends, and outliers.

Personal Portfolio Website

HTML · CSS · JavaScript · Git · GitHub

- Designed and developed a responsive single-page portfolio presenting skills, projects, and a learning timeline.
- Implemented a dark/light theme toggle, mobile navigation, and scroll-based animations using vanilla JavaScript.
- Managed the project with Git and published it as a GitHub repository.

EDUCATION

Bachelor of Computer Applications (BCA)

2025 – 2028 (Expected)

Veer Bahadur Singh Purvanchal University, Jaunpur — Currently in 2nd Year

CGPA: 6.89 / 10 **Relevant Coursework:** Data Structures, Object-Oriented Programming, Database Management, Mathematics & Statistics

ACHIEVEMENTS

Fresher
